100K Pts		20,192,268
Ttl Ops	157	
Ttl logs	711	
Ttl Pts		22,075,761

Notes:

- The above list is current through 2011 January VHF Sweepstakes results.
- All stations who have submitted a VHF log for SMC in a club competition event (both ARRL and CQ) from 1995 to present are included in the Cumulative list. Currently, there are 711 logs entries from 157 stations totaling over 22 Million points.
- The above list contains information on stations who have accumulated 100,000 or more points in VHF contests through SMC log submissions'
- Both current and former members are included in the Cumulative lists, but only logs that have been submitted on behalf of SMC are included in the calculations. VHF contest activity with other clubs or with no club affiliation is not included. Nor is activity included in a VHF contest having no club competition.
- Attempts have been made to aggregate the same person across all known call-signs held.
- On multi's and guest ops, the station call is used in the above lists, not the call-sign of the actual operators.
- Comments, revisions, corrections, etc, please send to w9gka@arrl.net
