

Introduction to SMC

— Society of Midwest Contesters —

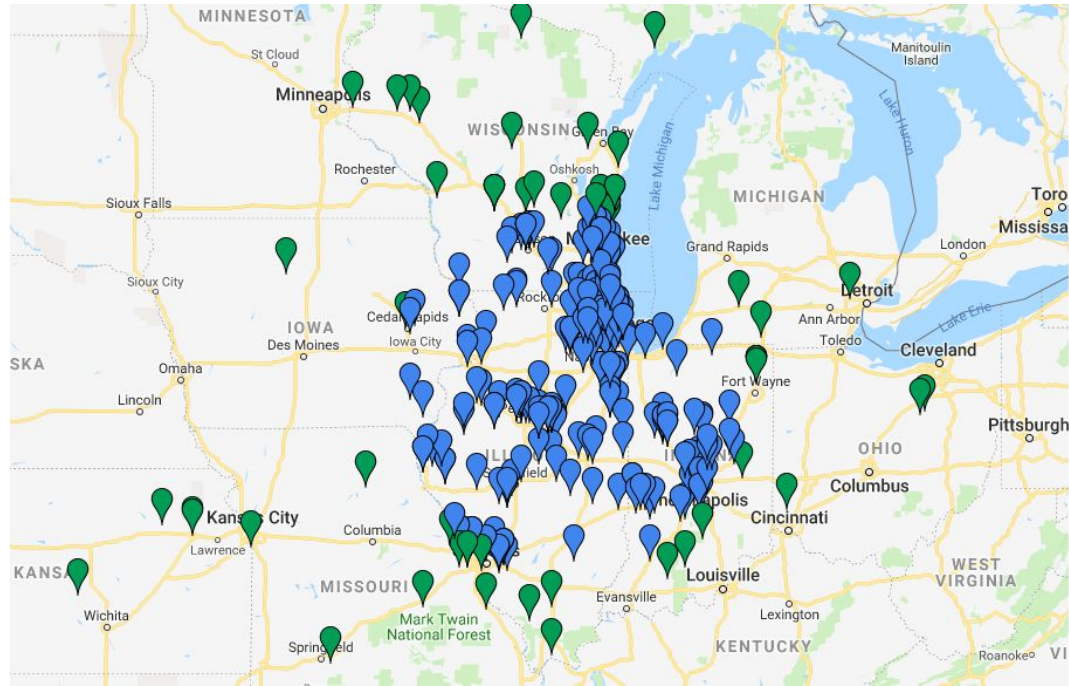

History

The Society of Midwest Contesters formed in 1985 with the goal of uniting Midwest contesters into a competitive group and to further the idea of radiosporting in the Midwest.

We are the largest contest club in the central United States, and one of the premier contest clubs in North America. Our membership is spread across the US, but concentrated here in the Midwest, over 300 members strong.

Membership around the Midwest

Members operate what they have

DXpedition members bring us ATNO's
